

CHAIRMAN'S CLUB VICTORIA RACING CLUB VIC

The Chairman's Club at Flemington Racecourse is the most exclusive corporate sporting venue in Australia, with a level of amenity that has reinforced the Victoria Racing Club's position as the leader in race day marketing.

Located on Level 3 of the new Members' Grandstand, the Chairman's Club has been designed to enhance every aspect of the race day experience, and to provide a venue for conferences and events on non-racing days. The design evolved from research which showed that patrons wanted a facility which allowed guests to mingle in a club-like environment, rather than being restricted to corporate boxes.

The Club occupies the entire level and is open in design, so that guests can meet a range of people in different settings. The luxuriously appointed dining area is centrally located within the space and there is a private dining room available for larger groups, functions and meetings. The 600 cinema-quality viewing seats have uninterrupted views of the track and the city skyline, while lounge terraces provide relaxed spaces where guests can mingle. The Chairman's Club has its own state-of-the-art wagering facilities and large screens and monitors to ensure that patrons can enjoy all the trackside action and racing information from every point of the Club.

The Chairman's Club opened in October 2000.
