

# JUPITERS CASINO GOLD COAST QLD

**Tabcorp's \$53M expansion of Conrad Jupiters Casino enhances the excitement of gaming by providing restaurants, bars, live music and comfortable lounge areas all on a single gaming level.**

The project includes approximately 3000m<sup>2</sup> of extra floor space on the main gaming level, which trebles the size of the original main gaming floor, as well as new offices, plant and storage spaces on the lower levels of the complex.

The Buchan Group was the architect for the original casino and has worked on a number of stages since the first opening in 1985.

The project opened in 2006.
